

DN-300Z Remote Control

1. **Source:** Press this button to cycle through CD, USB, SD, Aux, or Bluetooth modes. See [Operation > Selecting Media Playback Mode](#) for more information.
2. **FM/AM:** Press this button to switch between FM and AM modes. See [Operation > Selecting Media Playback Mode](#) for more information.
3. **Folder/All Button:** In USB or SD Mode, press this button to switch between Folder View and All View. See [Operation > Playing Audio Files](#) for more information.
4. **Eject Button:** Press this to eject the CD in the **CD Slot**.
5. **Time Button:** In CD, USB, or SD Mode, press this button to switch the Time Mode in the **display**. See [Operation > Playing Audio CDs](#) or [Playing Audio Files](#) for more information.
6. **Enter Button:** Press this button to confirm a selection.
7. **Number Buttons (0-9):** In CD Mode, Press one of these buttons to directly select a track to play. If the track number is two digits, press the buttons in succession (e.g., **1** then **2** for Track 12). See [Operation > Playing Audio CDs](#) for more information.

In FM/AM Mode, press one of these buttons to directly select a station stored to preset number. If the preset number is two digits, press the buttons in succession (e.g., **1** then **2** for Preset 12). See [Operation > Using the Radio](#) for more information.

Cursor Buttons: When in CD, USB, or SD Mode, use these buttons to navigate through the files and folders. See [Operation > Playing Audio Files](#) for more information.

8. **Repeat Button:** In CD, USB, or SD Mode, press this button to switch between Repeat Playback modes: **Repeat One**, **Repeat All**, and **Repeat Off**. See [Operation > Playing Audio CDs](#) or [Playing Audio Files](#) for more information.

Power-On Play Button: Press and hold this button to turn Power-On Play on or off. See [Operation > Additional Functions > Power-On Play](#) for more information.

9. **Auto Mute Button:** In FM/AM Mode, press this button to turn Auto Mute on or off. See [Operation > Using the Radio](#) for more information.

10. **Random Button:** In CD Mode, press this button to cycle through Normal Play Mode, Single Play Mode, and Random Play Mode. In USB or SD Mode, press this button to turn Random Play Mode on or off. See [Operation > Playing Audio CDs](#) or [Playing Audio Files](#) for more information.

Pairing Button: In Bluetooth Mode, press and hold this button to let the unit pair to a nearby Bluetooth device. See [Operation > Playing Audio from a Bluetooth Device](#) for more information.

11. **Skip Buttons:** In CD, USB, or SD Mode, press one of these buttons to move to the previous or next track. See [Operation > Playing Audio CDs](#) or [Playing Audio Files](#) for more information.

In FM/AM Mode, press one of these buttons to select the previous or next station stored to preset number. See [Operation > Using the Radio](#) for more information.

In Bluetooth Mode with a device compatible with AVRCP, press one of these buttons to select the previous or next track.

12. **Search Buttons:** In CD, USB, or SD Mode, press and hold one of these buttons to rewind/fast-forward. Initially, the track will rewind/fast-forward at **5** times the normal playback speed. After holding the button for more than 1 second, the track will rewind/fast-forward at **30** times the normal playback speed.

In Bluetooth Mode with a device compatible with AVRCP, press and hold one of these buttons to rewind/fast-forward.

Tuning Buttons: In FM/AM Mode, press one of these buttons to increase or decrease the frequency one step at a time. Press and hold the button for more than 1 second to jump to the previous or next station with clear reception.

13. **Play/Pause Button:** Press this button to start, resume, or pause playback.

14. **Stop Button:** Press this button to stop playback.

15. **Text Button:** In CD, USB or SD Mode, press this button to switch the display between the file name and other text information. See [Operation > Playing Audio Files](#) for more information.
Lock Button: Press and hold this button to turn Panel Lock on and off. See [Operation > Additional Functions > Panel Lock](#) for more information.
16. **Memory Button:** In FM/AM Mode, press this button to enter Preset Memory Registration Mode. After that, press a number button (0–9) to register the current station to that preset memory number. Press and hold this button to erase the station stored to the current preset memory number. See [Operation > Using the Radio](#) for more information.
17. **Auto Memory Button:** In FM/AM Mode, press this button to automatically scan available radio stations and register them to the preset memory. See [Operation > Using the Radio](#) for more information.

Battery Usage

Important: Before using the remote control for the first time, pull the insulation sheet out from the battery compartment (see image).

To replace the battery (see image):

1. On the back of the remote control, push the small tab toward the larger one, and pull out the battery case.
2. Pull out the old lithium battery from the battery case and insert a new one. Place the battery so that the positive (+) side faces upward.
3. Replace the battery case in its original position.

Important: Misuse of the lithium battery can result in heat build-up, ignition, or rupture. Bear in mind the following points when using or replacing batteries:

- The supplied battery is for testing the functionality of the remote controller.
- Use a **CR2032** lithium battery.
- Never recharge the battery. Do not handle the battery roughly or disassemble the battery.
- When replacing the battery, place it with its polarities (+ and -) facing the correct directions.
- Do not leave the battery in a place subject to high temperature or direct sunlight.
- **Warning:** Do not ingest the battery—**chemical burn hazard**. If a coin/button-cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. Tell others about the risk associated with button batteries and how to keep their children safe. If a battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention. Dispose of used button batteries immediately and safely. Flat batteries can still be dangerous.
- If electrolyte has leaked, discard the battery immediately. Be careful when handling it as the electrolyte can burn your skin or clothes. If the electrolyte touches your skin or clothes, immediately wash with tap water and consult a physician.
- Before discarding a battery, insulate it with tape, etc. and dispose of it in a place without fire, by following the directions or regulations laid down by the local authorities in the area of its disposal.
