**Keep the party going with great sound, interactive FX pads and dazzling light effects!**

When you want to maximize the party energy, Party Boom FX is for you. This versatile, rechargeable speaker streams your favorite music from any Bluetooth®-enabled device and pumps out great sound through its powerful 100-watt dynamic sound system. The woofer glows in multiple colors, delivering exciting lighting effects for a perfect touch. The built-in FX pads trigger special sound effects when they're hit, putting you front and center in the action! In addition, there is the ION Sound XP™ app control that works with your iOS or Android phone to control the audio and lighting functions, plus an included microphone. This is one very cool, great-sounding, great-looking speaker.
