

# POWER GLOW 200

Compact 200-Watt PA System with Lighted Woofer

## Deliver great professional PA sound to any event in style—from battery or AC!

Maybe some people can get by with any decent integrated PA speaker system. But for you, only a truly high-performance PA system will do. For complete versatility, it has a long-lasting built-in rechargeable battery that won't quit on you halfway through the night.

Power Glow 200 delivers real quality sound, not some weak imitation. This is a superb PA system that has everything you need in powerful sound, versatile and complete hookup/connection capability, convenient ease of use and set-up versatility. Its powerful 10-inch woofer features LED lighting effects in several colors, so you'll make a stunning visual impact matched only by the Power Glow 200's sonic repower. Your audience will love what they hear, and they'll love what they see.

The impressive 200-watt bi-amplified, equalized sound system easily covers large spaces with clear, vibrant sound. Its multi-channel mixer with (2) mic inputs and aux/line input lets you switch between any source you want. You can stream music from any Bluetooth® device, use the built-in music player to read music files using the USB port or SD card slot or use the FM radio with 30 presets. The included microphone puts you in charge of the action and has Echo Effect for great Karaoke. A convenient remote control is included.
