Conveniently plays material  
recorded on other devices

**Deliver great sound to any event!**

Whether it's that big BBQ in your backyard or your daughter's high school graduation party, you need an all-in-one speaker system that can cover a large space with powerful, articulate sound, but is easy to set up and can handle a wide variety of inputs and auxiliary equipment. You need Pro Glow 1500.

Here is everything you need: A high-powered (250-watt) bi-amplified, equalized sound system with a robust 15-inch woofer and 1-inch tweeter pumps out clear, vibrant sound. The woofer glows in multiple colors for exciting visual effects. There are two mic inputs and Master Volume control, plus remote control. You can wirelessly stream music from any Bluetooth® device, use the built-in music player to read music files using the USB port or SD card slot or take advantage of the FM radio. The included microphone with echo effect is great for karaoke.
